FRAMEWORKS/LIBRARIES

- React
- Bootstrap
- .NET
- Tailwind CSS
- Unity

PRODUCTIVITY

- Notion
- Git
- Jira
- Figma
- Azure
- Draw.io

PROJECTS

SERENITY
In Development

- Serenity is a React app that I thought of to create a safe space for others to go to for the help they need.
- The app consists of a mood tracker to see the user's day to day mood, it also has different resources such as hotlines, therapeutic music, and more.
- The app is currently being built by a team led by me.

SOCIAL MEDIA DASH

- The Social Media Dash is a React app created to view a user's statistics in different social media apps.
- I worked on this web app alone, it is fully responsive and has both a dark and light mode.
- This app uses Tailwind CSS, Tailwind uses a built in dark theme property that you can add to the classname.

POKEAPI

- The PokeAPI is a pokedex built with HTML, CSS, JavaScript, and bootstrap.
- It gives you the ability to either search a Pokémon by it's name, or click the random button to display a random Pokémon.
- The Pokémon are pulled through the pokeapi.

EXPERIENCE

CHILDCARE SERVICE
Care Taker

July 2020 - June 2022

STUARTS PIZZA
Shift Lead

March 2020 - November 2020

EDUCATION

CODESTACK ACADEMY
12 Months of intensive and extensive project based curriculum and learning

2022-2023

JAMES C. ENOCHS HIGH SCHOOL
High School Diploma

2018-2022
